

MODULE 11 - CREATING ANIMATION CONTENT

CHAPTER 4

HOW TO CREATE YOUR OWN PHOTO ALBUM

INTRODUCTION

Here you will learn how to create photo albums on your smartphone using a variety of apps. This chapter covers selecting, organizing photos, and adding personalized details to design a photo album ready to share or print.

HOW TO CREATE YOUR OWN PHOTO ALBUM CONTENT

CREATE THE CONTENT OF YOUR PHOTO ALBUMS

Creating the content of your photo albums directly on a smartphone is practical and accessible. Here is a step-by-step guide to designing a personalized photo album using mobile apps:

STEP 1: PHOTO SELECTION - ORGANIZE YOUR PHOTOS

- **Sorting Photos:** Browse your albums and mark or favorite the photos you want to include in your album.
- **Creating a specific folder:** Create a specific folder or album on your smartphone to collect all the selected photos.

STEP 2. CHOOSING THE APP - HERE ARE SOME POPULAR APPS

- Google Photos: Create simple albums and share them easily.
- Canva: For personalized designs with an intuitive interface.
- Shutterfly, Snapfish: For creating professional-quality photo albums.
- PicsArt: For creative options and photo collages.
- Photo Collage Maker: For quick and aesthetic montages.

STEP 3. CREATING THE ALBUM

USING GOOGLE PHOTOS:

- Open Google Photos: Download and open the app if you haven't already.
- Create an album: Go to the "Library" tab then "Albums", and click on "Create an album".
- Add Photos: Select the photos you previously organized.
- Customize the album: Add titles and descriptions to each photo if you wish.
- Share: Click the share button to send the album to your friends and family.

USING CANVA:

- Download and open Canva: Create an account or log in.
- Choose a template: Search for photo album or collage templates.
- Import your photos: Upload photos from your gallery.
- Customize the layout: Add captions, titles, and graphics.
- Use editing tools to adjust photos (cropping, filters, etc.).

STEP 4. SAVE AND SHARE

Save the final design on your smartphone or share it directly from the app

USING SHUTTERFLY OR SNAPPISH:

- Download the app: Install Shutterfly or Snapfish on your smartphone.
- Create a project: Start a new photo album project.
- Select a template: Choose an album template from those offered.
- Add Photos: Upload photos from your gallery.
- Customize the album:
 - Add titles and text.
 - Use the layout options to arrange your photos.
- Order the album: Finalize your album and place your order to receive it in printed form.

STEP 5. FINALIZATION AND SHARING

PROOFREADING AND ADJUSTMENTS

- Check Captions: Make sure all descriptions and captions are correct.
- Adjust the layout: Check that all photos are correctly aligned and aesthetically arranged.

SAVE AND PRINT

- Save the album: Save the finished project to your smartphone or the cloud.
- Print the album: Use an app that offers printing services or upload the file to an online printing service.

SHARE WITH OTHERS

- Share Online: Use the app's sharing features to send the album via email, social media, or a link.
- Show off your physical album: Once printed, share your album with loved ones at gatherings or special events.
